LAW 659: Privacy, Artificial Intelligence, and Ethics (1 cr) (June 4-11) 1-4:30 & (June 4,11) 9-12 *Pass/Fail*
LAW 659: Managing Global Data Transfers (2 cr) (June 7-10-4) 9-12 *Graded*

APPLICATION PROCEDURES

All Applicants:
Admission to courses in the Summer Session is open to: (1) law students who have completed their first year and are in good standing at an ABA approved law school, and (2) special students not currently enrolled in an ABA approved law school program.

Priority registration for summer session will begin on **February 16 and end on February 26**. Registrations will be accepted after that day on a space available basis. All applicants must complete the attached registration form, along with any other required documents (ie; Independent Study Proposal. Upper level Writing Requirement Form) You do **not** need your advisor's signature to register for summer courses, although we do encourage all students to check in with their advisor for guidance in their selection.

Note: Students will not be permitted to register unless their current accounts are clear at the Student Billing Office. The Law School reserves the right to cancel any course because of insufficient enrollment.

Law Students at Other Law Schools:
Students currently enrolled at other ABA approved law schools must submit with their registration form and a letter from the Dean of their law school certifying that the applicant is in good standing and has completed or is in the process of completing their first year of law study. Acceptance to the Summer Privacy Institute is conditional based on the successful completion of a student's first year.

Special Students:
Applicants not currently enrolled in an ABA approved law school program may enroll in Summer Session classes with the permission of the Associate Dean and course instructor. Special students should submit a statement summarizing their background and setting forth their reasons for wishing to enroll in the Summer Session. Special students will be admitted based on available space. Credits obtained by a special student in the Summer Session may not be applied toward a J.D. degree at this law school if the student becomes a candidate for that degree in the future.

CREDIT
The summer session is approximately one-half of a full semester. Therefore, enrollment for six credit hours is necessary to be eligible for financial aid, and a student may enroll for no more than 8 credit hours.

RESIDENCY RULE
A student must complete 6 semesters in residence at the University of Maine School of Law on a full-time basis. Law students interested in early graduation should note that two summer sessions at the Law School, each of which includes the successful completion of at least five credit hours, can be combined to meet the residence requirement for one semester. See the student handbook for details.

EXAMINATIONS
With the exception of Summer Information Privacy Institute classes, the final examinations in all courses with examinations will take place July 19-21.

ADD/DROP
For seven week courses, students may add up until the start of the second class meeting, on a space available basis. Students may drop with a full refund and no transcript notation during the first seven days including the first day of class. For withdrawals after the seventh day, there is no refund and a grade of W will be posted on the transcript. For courses one week or less in length, students must be enrolled before the start of the first class meeting. Students may drop with a full refund and no transcript notation on the first day of class. For withdrawals after the first day, there is no refund and a grade of W will be posted on the transcript. All add/drop requests must be submitted to lawregistrar@maine.edu.

CHARGES AND PAYMENT POLICIES
Tuition Charges per Credit Hour:

Maine Residents	$773.00
Non-Maine Residents	$1,156.00
New England Board of Higher Education	$1,055.00

Fees

Summer Administrative Fee	$35.00
Transportation Fee:	$35.00 (0.5-5.99 credit load)
	$50.00 (6-11.99 credit load)
Unified fee:	$33/credit hour

Payment Requirements:
The payment due date for Summer 2021 is May 15 for students registering prior to that date.   Payment for all charges incurred after May 15 is due within 10 business days of the registration date.

Methods of payment include:
- Payment in full
- A financial aid award sufficient to pay all summer charges
- Notification received by USM Student Accounts that an employer or other third party will make payment for all summer charges
- Enrollment in a 3 installment payment plan
- Paper checks can be mailed to USM Student Accounts, PO Box 9300, Portland, Maine 04104-9300
.
Refunds
Tuition and mandatory fees will be reduced in accordance with the following schedule when a student officially drops a class. *(Charges are not reduced when a student drops a class after the stated deadlines. Attendance includes weekends and holidays.)*

Classes 7 weeks in length	100% prior to the end of the seventh day	(7 days)
Classes 1 week or less in length	100% prior to the end of the first day	(1 day)

Questions? Call (207) 780-5200 or visit the Student Accounts Office in Luther Bonney Hall in Portland.

Advanced Legal Research | Law 731 | Instructor: Christine Dulac
3 credit hours
This course is designed to prepare law students to conduct effective legal research in any setting; while working on a scholarly article or paper, or working as a judicial clerk, as a practitioner in a firm, government or solo practice. Students will learn about the development of legal research tools and how to evaluate print and electronic resources for currency, authority, comprehensiveness and utility. By the end of the course, students should be familiar with the entire universe of legal resources, be confident when using online sources, and be able to conduct professional-level legal research in any field, on any legal topic. The course will be divided into two major segments; a lecture and discussion section and a practical "lab" meeting in the library. During these lab sessions the students will use the resources discussed in the lecture portion of the course to conduct hands-on research using traditional print resources as well as electronic resources. Grades will be based on a combination of class participation, research assignments and two larger writing assignments: a website review and a pathfinder on a topic of the students' choosing. Enrollment limited to 25 students.

Evidence | Law 644 | Instructor: Jon Chapman
3 credit hours
Topics considered in this course are: Objections and preserving the record; foundations; relevancy and policy-based restrictions on the admission of relevant evidence; the hearsay rule and its exceptions and exemptions; character evidence; cross-examination and methods of impeachment; privileges; opinion testimony and expert witnesses; and the best evidence rule. This course is a pre- or co-requisite for Trial Practice, and prerequisite for General Practice Clinic, Juvenile Justice Clinic, Prisoner Assistance Clinic, Trial Advocacy, and some Externship placements.

Professional Responsibility | Law 632 | Instructor: Aria Eee/Julia Sheridan
3 credit hours
This course examines the role of the legal profession in defining, promulgating, and enforcing standards of professional conduct. Selected problems illustrative of the responsibilities of members of the legal profession are examined. This course is a prerequisite for General Practice Clinic, Juvenile Justice Clinic, and Prisoner Assistance Clinic. It is a pre-or co-requisite for some Externship placements. **Successful completion of Professional Responsibility is required for graduation.**

Global Privacy Law | Law 725 | Instructor: Gabe Maldof
2 credit hours
Personal data is the raw material for business models in industries ranging from online advertising, social networking, cloud computing, health and financial services. Governments, too, rely on personal data for purposes such as national security and law enforcement, urban planning and traffic control, public health and education. Emerging technologies greatly enhanced data collection, storage and analysis. In this context, public and commercial interests strain against individual rights, with privacy law serving as the mediator. This course will place privacy within a social and legal context and will investigate the complex grid of legal structures and institutions that govern privacy at state, national, and international levels. Students will be taught how to critically analyze privacy problems and make observations about sources of law and their interpretation, with an emphasis on the global nature of data. The final grade will be based on class attendance/participation, and a take-home exam.

Data Monopolies: Competition Law for Privacy Pros | Law 659 | Instructor: Rita Heimes
1 credit hour (Pass/Fail)
In the United States, the Federal Trade Commission enforces not just the Federal Trade Commission Act and its prohibitions against unfair and deceptive practices, but as well laws that prohibit restraints of trade and other

anti-competitive practices. In recent years, giant U.S. tech companies like Apple, Facebook, Amazon and Google have come under scrutiny - if not congressional investigation and even litigation - for allegedly monopolizing digital markets. The European Commissioner for Competition is also keenly interested in the actions of these and similar players. This course will introduce students to competition law, including a comparative look at how the EU approaches it, to prepare them for legal and policy issues their clients might face as they collect, process, and share personal information globally, and even participate in the consolidation of data assets through mergers and acquisitions. Grading will be pass/fail and based on class participation and a short in-class presentation.

Privacy, Artificial Intelligence & Ethics | Law 659 | Instructors: Christopher Hart/Brittan Heller
2 credit hours
Privacy has been a notoriously difficult issue to pin down, and changes in law and technology have made privacy a moving legal target, especially for compliance professionals. On top of the complexities created by privacy laws, the increasing use of artificial intelligence technologies creates a new set of opportunities, and a new set of problems. This course explores the current issues in the law around privacy, artificial intelligence, and the interactions between those two fields. In addition to gaining an understanding of the state of the law, you will come away from the course with a better of understanding of what artificial intelligence actually is, how it's used, and why it matters. After exploring these concepts, we will consider the ethical questions surrounding data use and artificial intelligence, and implications for the future. This course concludes with an all-day conference organized by the University of Maine School of Law in collaboration with Northeastern University's Roux Institute and Law School covering topics in AI, privacy and ethics. Grading will be based upon class participation, an in-class presentation, and a final paper.

Managing Global Data Transfers | Law 659 | Instructor: Justin Weiss
1 credit hour (Pass/Fail)
In contrast to legal regimes that restrict localization of data to a single jurisdiction, omnibus data protection laws like the EU's GDPR generally authorize the transfer of personal data across borders under appropriate circumstances. The policy objective of data transfer rules contained in such laws is to ensure that the level of privacy protection afforded by the exporting jurisdiction shall be maintained by the importing jurisdiction, while enabling the free flow of information. In the United States, privacy advisors to cloud providers, corporate affiliates, banks and consumer internet businesses alike must learn how to implement the safeguards used to enable these global data flows. In 2020 this task was further complicated by the Court of Justice of the European Union's decision in its landmark "Schrems II" ruling, which invalidated one commonly-used US transfer tool and created new rules for "supplemental safeguards" that are required to support transfers to various third countries, depending on the attributes of legal regimes in the countries themselves. This course will survey the international data transfer provisions contained in Chapter V of the EU's GDPR with a special emphasis on the European Commission's model contractual clauses, read in light of the Schrems II decision. Grading will be pass/fail and based on class participation and a short in-class presentation where each student will present their recommendations to support transfers to an assigned jurisdiction.

Professor Biographies

Jonathan Chapman
Jonathan Chapman worked for more than 30 years as a prosecutor in the Office of the United States Attorney for the District of Maine. He served as Chief of the Office's Criminal Division from 2002 until he retired from federal service in the summer of 2019. Before joining the U.S. Attorney's Office, Jon worked for seven years as a state prosecutor in the Cumberland County District Attorney's Office and the Maine Attorney General's Office. As a federal prosecutor, Jon tried a wide variety of criminal cases, particularly in the area of drug trafficking, firearm crimes and violent crimes. As Chief of the Criminal Division Jon oversaw the prosecution of all federal criminal cases in Maine and supervised the trial practice of the prosecutors in the office. Jon has been on the adjunct faculty at Maine Law since 2005. He has taught courses in evidence, trial practice, white collar crime and criminal procedure.

Aria Eee
Aria Eee serves as Executive Director to Maine's Board of Overseers of the Bar. Her primary responsibilities include assisting the Board in its fiduciary obligations, advising Maine lawyers on ethical concerns, and presenting legal education programs. Prior to serving as ED, Aria was Bar Counsel for Maine and a regulation counsel for many years. A Maine Law graduate, Aria began her career as a NAPIL fellow primarily assisting Passamaquoddy Tribe clients and then as counsel for the Passamaquoddy Tribe's Housing Authority (Pleasant Point). She was a solo practitioner in rural Maine before serving for a decade as an Assistant Attorney General. An Adjunct Professor, Aria teaches Professional Responsibility at Maine Law. Aria is a member of the ABA, the Maine State Bar Association, the Gignoux Inn of Court, Maine's BIPOC community and various affinity bar groups.

Christopher Escobedo Hart
Chris Hart is a partner and co-chair of the Privacy and Data Security Practice in the Boston office of Foley Hoag. He has counseled and represented sovereign nations, Fortune 500 companies, start-up companies, non-profits, and individuals in a wide variety of contexts for over a decade. He represents clients before the U.S. Supreme Court, argues in appellate courts across the country, including successfully before the Massachusetts Appeals Court and Supreme Judicial Court; and advocates on behalf of clients in federal and state courts nationwide. He also frequently represents clients in significant internal investigations. Chris has a BA from Harvard University, a MA from St. John's College, and JD from Duke University School of Law.

Rita Heimes
Rita Heimes is the General Counsel and Chief Privacy Officer of the International Association of Privacy Professionals. Prior to joining the IAPP as its first Research Director in 2015, Rita was a law professor and academic dean at the University of Maine School of Law, where she directed the Center for Law + Innovation and developed the nation's first Privacy Pathways program. She continues to serve as a Senior Privacy Fellow for the law school and directs the Information Privacy Summer Institute. Rita spent several years in private practice with law firms in Seattle, Boulder and Portland. She has a BA in Journalism from the University of Iowa and a JD from Drake University School of Law.

Brittan K. Heller
Brittan Heller is Counsel in the Washington DC office of Foley Hoag. She has structured her practice at Foley Hoag around the areas of law, technology and human rights. She specializes in advising companies on privacy, freedom of expression, content moderation, online harassment, disinformation, civic engagement, cyberhate and hate speech, and online extremism. As the founding director of the Center on Technology and Society for the Anti-Defamation League, Brittan proposed new policies and implemented programs to prevent bias, racism, discrimination, and the spread of disinformation, with a focus on protecting minority populations. She also collaborated with major online platforms and gaming companies to combat cyberhate, and produced and launched new technology for good, in mediums like AI, VR/AR/XR and data visualization. Brittan has a BA and MA from Stanford University, and a JD from Yale Law School.

Gabe Maldoff
Gabe Maldoff is an associate in the Privacy and Cybersecurity group at Covington & Burling LLP. He advises global clients on privacy, data protection, and technology law issues, with particular focus on international frameworks, cross-border transactions, and the privacy implications of emerging technologies. Before joining the Washington, DC, office, Gabe worked for three years in a top-ranked European data protection practice in London, UK, where he advised technology clients on compliance with the General Data Protection Regulation (GDPR) and European telecommunications and marketing laws. Gabe also served as a Westin Fellow at the International Association of Privacy Professionals. His research on U.S., Canadian and European privacy and national security laws has featured in journals in the U.S. and Europe. Gabe continues to write and speak widely on issues related to privacy and data protection, and to represent industry associations and non-profits on matters of public policy. Gabe holds a J.D. from the University of Maryland Law School and a B.Sc. from McGill University in his hometown of Montreal, Canada. In his spare time, you'll find him on his bike, on his skis, or looking for a mountain to climb (even if it's just the steps to the Lincoln Memorial these days). He currently serves as a member of the Arbitration Panel for the EU-U.S. Privacy Shield Framework.

Julia Sheridan
Julia Sheridan serves as Chief Bar Counsel for the Board of Overseers of the Bar. She graduated from Boston College Law School (JD) in 1989, from The University of Texas at Austin (MA in anthropology) in 1985, and from Harvard University (BA in anthropology) in 1983. After clerking for Justice William F. Batchelder on the New Hampshire Supreme Court, she worked at a firm for three-and-a-half years doing general litigation and transactional work. In 1994 she became an Assistant District Attorney in Cumberland County. There, she prosecuted all levels of crimes, handling jury trials, appeals and petitions for post-conviction review. She has taught at the University of Maine School of Law and served as a board member of the Board of Overseers of the Bar. She is a member of the National Organization of Bar Counsel, the Gignoux Inn of Court, and the board of directors of the Cleaves Law Library.

Justin Weiss
Justin leads data privacy within Naspers—a South African global internet group and one of the largest technology investors in the world. In his role, he supports investee companies ranging from start-ups to mature multinational players on legal compliance, M&A, contracting, policy and training. He counsels executives, corporate finance, artificial intelligence, product, engineering and public affairs teams on data policy, risk and privacy programme management, and runs the group's data privacy secondment programme. Previously, Justin served as Assistant General Counsel for Privacy & International Policy at Yahoo!, representing the company before world governments, APEC, the COE, the EU's Article 29 Working Party and technology-focused trade associations on regulatory matters. An experienced international practitioner, he has served as an expert privacy advisor to the OECD's Working Party on Information Security and Privacy in its 30-year review of the OECD Privacy Principles, and currently serves as the Chairman of the Board of Directors of the International Association of Privacy Professionals.
